### TSR Drivers

#### TSR2 - £529

- TSR2 is the perfect combination of speed and stability for maximum distance
- For players who struggle with inconsistent strikes, TSR2 is your pick to help maintain ball speeds and forgiveness across the entire clubface
- New and improved lower and more forward CG placement produces faster ball speeds with improved launch and spin

#### TSR3 - £529

- TSR3 is the player's driver that provides incredible speed, distance, and playability
- If you are a player with a consistent impact location, TSR3 should be your choice - the new speed ring face technology and adjustable CG track enables you to fine tune your impact location to optimise ball speed from that area of the clubface

#### TSR4 - £529

- TSR4 is the ultimate low-spin driver, with a more compact 430cc player preferred head
- Two weight positions enable you to dial in your spin rate - the forward setting produces maximum spin reduction, while the mid weight setting offers moderate spin reduction

### TSR Fairways

#### TSR2 - £289

- TSR2 offers high forgiveness with a new lower CG placement to produce a higher launching trajectory
- New open hosel construction removes unwanted weight, and creates a new improved more powerful sound and feel

#### TSR2+ - £289

- TSR2+ is a brand-new tour-inspired model consisting of a larger profile head to offer more forgiveness than TSR2
- TSR2+ is the perfect option for those players seeking a more forgiving, accurate option off the tee, with a more central CG for straighter ball flights

#### TSR3 - £289

- TSR3 is the ultimate in adjustability, offering precise control with a lower, deeper CG for improved accuracy
- 5-position SureFit adjustable CG track system enables you to dial in your preferred shot shape
- Lower and more central CG placement results in more forgiveness and a higher launch
