

PhotoClub Focus – 13th June 2024

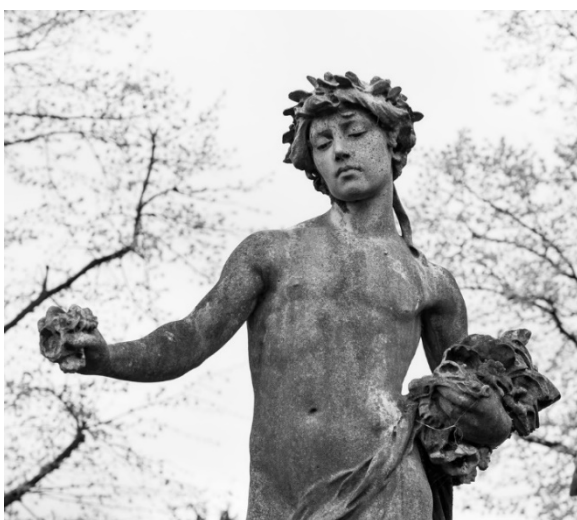

We would like to thank Richard Le Vesconte our retiring Chair for his tireless work for the PhotoClub over the past five years. We hope to see more of his imaginative and creative photo contributions to the Club.

Sarah Smith has taken on the role of Chair, and we look forward to her future vision for our group.

The annual Photo Exhibition last month was a big success. You can still view it on the web link to the gallery <http://roehamptonphotoclub.co.uk/exhibition-2024/>

Last month we had two PhotoClub outings. The first was to Ramster Gardens followed by a review for those who were unable to go in order that they could enjoy the photos as well. The second one was to Brompton Cemetery:

Paul Viita – Brompton Cemetery

Jane Skinner - Ramster Gardens

Watch this space for more outings during the summer that are open to *all* Club Members. If you feel like joining us with your camera or mobile phone and also for lunch, it's always a fun day out!

Summer Photo Workshops

There are two summer photo workshops coming up at the Club which you might like to join

Macro Photography

Thursday 27th June, 10.30am to 4pm

On this one-day course delving into the magical world of close-up macro photography, you will learn how to use your camera and lens to produce stunning images.

You will also understand how lighting (natural and artificial) plus good composition and pinpoint focusing can transform your shots.

We will also cover how to use 'focus stacking' in your macro work resulting in a packed day of shooting!

Abstract Photography

Thursday 11th July 10.30-4.00pm

In this immersive workshop, we will be looking at experimental and conceptual image makers and how you can apply some of their techniques to your own work.

There is a rich creative tradition of abstraction in photography, and you will have the opportunity to examine and discuss in detail the work of practitioners of this fascinating genre.

Influenced by great artists old and new, you will then experiment with abstraction and create your own images which will then be reviewed in the class.'

There is space for a maximum of 14 students which will be allocated on a first-come, first-served basis.

Please express your interest in joining these workshops to PhotoClub member Peter Buckingham ptrbuckingham@gmail.com

Join in ...

The PhotoClub is always open to new members – whatever your preference for taking pictures – with a camera or on your phone.
